Forecast for Friday 06 Aug 2021

Weather: Cloudy with scattered showers during the early hours of the morning, some of these showers locally heavy with a risk of thunder. Similar conditions persist throughout the morning with showers becoming more frequent, and perhaps merging to form longer spells of rain at times. Conditions improving a little during the late afternoon as showers become a little less frequent.

Chance of cloud free mountain/hill tops above 600m: 20% rising to 60% by early afternoon.

Visibility: Generally moderate visibility, dropping to poor in any showers and very poor in any heavy ones. Cloud bases 300-400m early morning but rising towards 600-700m during the morning. Cloud bases reducing somewhat in association with the heaviest rain, which will obscure some slopes and summits.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Waterproofs will be required for much of the day and care should be taken when walking on wet and slippery paths. Poor visibilities near summits and with the risk of thunder storms will make conditions challenging at times.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Thu 05 Aug 2021	4.6mm	4.6mm	6mm

Forecast for Saturday 07 Aug 2021

Weather: Cloudy with a few clear spells overnight, however frequent showers are still likely, these perhaps merging into longer spells of rain at times. Showers developing more widely during the morning, any showers likely to be heavy with thunder in places during the day.

Maximum wind: Southwesterly 15-20mph gusting 25-30mphparticularly near showers

Chance of cloud free mountain/hill tops above 600m: 30% rising to 50% during the morning.

Visibility: Generally moderate, with sudden deterioration, falling to poor in showers. Cloud banks with bases from 500m reducing visibilities on slopes and summits during the morning. Cloud generally lifting with bases mostly above the summits from late morning, however temporarily reducing with passing showers.

Temperature: **Valleys:** Plus 12 Celsius, rising to plus 17 Celsius.
At 600m: Plus 9
Freezing level: Above the summits.
